Commentary on Interim Financial Statements

Solid performance growth continued
 Our half-year results show Profit Before Tax increasing by 15% to E174.9 million (2022: E152.6 million), realizing a 20.3% Return on Equity (2022: 18.6%). This continues FNB Eswatini's track record of delivering robust shareholder returns and strong earnings. The 14% increase in our Loan book to E3.9 billion (2022: E3.4 billion) helped lift Net Interest Income contribution by 9%, compared to the December 2022 half-year results.

Customer acquisition and increased transactional volumes a major contributor to earnings growth
 Strong effort has been maintained in acquiring new customers, leading to an increase of 13% in the bank's Active Customer Base compared to the same half-year period in December 2022. The bank's customer base continues to increase usage of our digital platforms, and the combined growth in active customer numbers and transaction volumes is reflected in the 17% increase in Non-Interest Revenue recorded in December 2023. This is a significant improvement considering that price adjustments during the reporting period were well within reported inflation. The bank will continue to identify measures to improve affordability as digital migration continues.

Quality of lending will remain a priority
 Despite some indicators of strain in consumer capacity to borrow, impairments of Loans & Advances has been managed within acceptable levels, with E12.3 million charged against income for the half-year, compared to a similar number in the previous reporting period (2022: 12.4 million).

Credit loss ratios have improved to 0.36% (2022: 0.44%), reflecting focus on the quality of credit extended, and the increased use of artificial intelligence tools in assisting with the management of high volume credit applications and decisions. The bank has also been deliberate in helping customers that have reported strain by finding ways to improve their affordability.

Infrastructure investment has continued to help improve customer and employee experience
 Significant investment has been made in modernising experience centres for both customers and employees. This is reflected in the completion of the new head office at Ezulwini in the first quarter of this financial year and the construction of a branch at the Matsapha Lifestyle Centre, which is expected to be completed in the third quarter. Furthermore, the bank plans to establish the presence in growing towns like Buhleni in Hhohho.

These infrastructure projects will be followed by deliberate efforts to increase self-service opportunities for FNB customers who still use branch services, the centralisation of some functions that customers traditionally visited branch services for, through leveraging technology, and finding more efficient ways to manage the continued high use of cash in some customer sub-segments. Whilst the Cost to Income ratio has improved to 58.3% (2022: 59.1%), there will be pressure going forward as these major projects are completed.

The bank will continue to find means to extract required efficiencies from the technology and infrastructure investment to lower operational costs.

Abridged Statement of Cash Flows for the interim period ended 31 December 2023	6 months ended 31 December 2023 E'000	30 June 2023 E'000

Independent Auditor's Review Report on Interim Financial Statements

We have reviewed the condensed interim financial statements of First National Bank of Eswatini Limited in the accompanying interim report, which comprise the condensed statement of financial position as at 31 December 2023 and the related condensed statements of comprehensive income, changes in equity and cash flows for the six-months then ended, and selected explanatory notes.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements of First National Bank of Eswatini Limited for the six months ended 31 December 2023 are prepared, in all material respects, in accordance with the International Financial Reporting Standard, (IAS) 34 Interim Financial Reporting, the Eswatini Stock Exchange listing requirements notice and the requirements of the Companies Act of Eswatini.

Listing of FNB Eswatini on the Eswatini Stock Exchange and Local Participation in Shareholding
 On 5th December 2023, FNB Eswatini successfully listed on the Eswatini Stock Exchange ("ESE"), with a 20% in shareholding sold to local institutional investors who represent a broad base of working class & pensioned Emaswati.

This development not only gave local investors access to what is now the largest listing on the ESE by market capitalization, it also marked a significant step for the bank to cement its identity as a strong contributor to the local economy and demonstrates our commitment to Shared Prosperity values.

Declaration of interim dividend

Notice is hereby given that an interim ordinary dividend of 63.5 cents per ordinary share, totalling E84,491,859, be and is hereby declared for the six months ended 31 December 2023 and payable to all ordinary shareholders registered in the books of the company on 22 March 2024. The transfer books and register of members will be closed from 22 March 2024 to 28 March 2024, both days inclusive, for the purpose of determining those Shareholders to whom the dividend shall be paid. Payment of dividend is expected to be on or about 02 April 2024.

Normal and withholding tax will be deducted from dividends paid to local shareholders and non-resident shareholders respectively, where applicable.
